Bowdoin College

BOWDOIN COLLEGE was incorporated by the General Court of Massachusetts, upon the joint petition of the Association of Ministers and the Court of Sessions of Cumberland County. The act of incorporation was signed by Governor Samuel Adams, June 24, 1794. The legal designation of the Corporation is the President and Trustees of Bowdoin College.

The College was named in honor of James Bowdoin, a distinguished Governor of Massachusetts, of Huguenot descent. The government has been, from the first, vested in two concurrent Boards, the Trustees and the Overseers, the Trustees initiating legislation and the Overseers concurring or vetoing. Since 1870 one-half the vacancies occurring in the Board of Overseers have been filled from nominations from the body of the Alumni.

The earliest patron of the College was the Hon. James Bowdoin, a son of the Governor. He gave land, money, and apparatus during his lifetime, and at his death made the College his residuary legatee. His library, collected during his residence in Europe as Minister to Spain and France, contained some 2,000 volumes and as many more pamphlets. It was rich in French literature and history and rare tracts on American history, and included almost everything in print on Mineralogy. His art collection, also bequeathed to the College, contained seventy paintings, originals and copies, and one hundred and forty-two drawings by old and modern masters; among the paintings were the portraits of Thomas Jefferson and James Madison by Gilbert Stuart.

Circumstances delayed the opening of the College until 1802, when Rev. Joseph McKeen, D.D., was elected its first president. Seven other presidents have since held office: Rev. Jesse Appleton, D.D., 1807-1819; Rev. William Allen, D.D., 1819-1839; Rev. Leonard Woods, D.D., LL.D., 1839-1866; Rev. Samuel Harris, D.D., LL.D., 1866-1871; Gen. Joshua Lawrence Chamberlain, LL.D., 1871-1883; Rev. William DeWitt Hyde, D.D., LL.D., 1885-1917; and Kenneth Charles Morton Sills, LL.D., 1918 to date.

More than twelve thousand, five hundred students have been admitted, and eight thousand, three hundred and fifty-eight degrees have been awarded. The living graduates number three thousand, seven hundred and ninety-six.

Among the graduates have been: Henry Wadsworth Longfellow, Nathaniel Hawthorne, Franklin Pierce, and Robert Edwin Peary.

THE COLLEGE BUILDINGS

MASSACHUSETTS HALL, completed in 1802, was the first college building erected. Recently the two upper floors were used for the CLEVELAND CABINET of mineralogy, named in honor of Professor Parker Cleaveland, but now, after complete remodeling in 1936, the whole building is used for the administrative offices of the College.

MAINE HALL (1808), WINTHROP HALL (1822), named in honor of Governor John Winthrop of the Massachusetts Bay Colony, APPLETON HALL (1843), named in honor of the second president of the College, and WILLIAM DEWITT HYDE HALL (1917), named in honor of the seventh president of the College and erected from contributions from many of the Alumni, are the four dormitories, and form with the Chapel the eastern side of the Quadrangle.

THE CHAPEL, a Romanesque Church of undressed granite, designed by Richard Upjohn, was built during the decade from 1845 to 1855 from funds received from the Bowdoin estate. It stands as a monument to President Leonard Woods under whose personal direction it was erected. In the Chapel is the organ given by Cyrus H. K. Curtis, LL.D., in 1927.

SETH ADAMS HALL was erected in 1860-61. It was named in honor of Seth Adams, Esq., of Boston, who contributed liberally towards its construction. It stands on the Delta, and is used as a recitation building.

MEMORIAL HALL, erected in 1868, is a structure of local granite in the French Gothic style. It is a memorial to the graduates and students of the College who served in the Civil War, and bronze tablets bearing their names are placed around the hall on the second floor. The lower story is used for recitation purposes.

The OBSERVATORY was erected in 1890-91 with funds given by Mr. John J. Taylor, of Fairbury, Illinois. It stands on the south-east corner of Pickard Field, and is reached from Harpswell Road.

The WALKER ART BUILDING was designed by Messrs. McKim, Mead, and White and erected in 1892-94. It was given to the College by the Misses Walker, of Waltham, Mass., as a memorial to their uncle, Theophilus Wheeler Walker, of Boston, a cousin of President Woods.

The MARY FRANCES SEARLES SCIENCE BUILDING was designed by Henry Vaughan and erected in 1894. It is a gift of Mr. Edward F. Searles in memory of his wife. With the Walker Art Building it forms the western side of the Quadrangle.

HUBBARD HALL, the library building, was also designed by Henry Vaughan. It was erected in 1902-03 and presented to the College by

General Thomas H. Hubbard, of the Class of 1857, and his wife, Sibyl Fahnestock Hubbard. It is built of brick and Indiana limestone and forms the southern end of the Quadrangle.

SARGENT GYMNASIUM and GENERAL THOMAS WORCESTER HYDE ATHLETIC BUILDING were erected in 1912. The Gymnasium was built from contributions from many of the students and Alumni, and named in honor of Dudley A. Sargent, M.D., Sc.D., of the Class of 1875; the Athletic Building was given by John Hyde, of Bath, in memory of his father, a graduate of the College in the Class of 1861, whose name it bears. Connected with the Gymnasium is the Swimming Pool, given in 1927 by Cyrus H. K. Curtis, LL.D. This structure stands to the east of the Chapel, outside the Quadrangle.

The DUDLEY COE MEMORIAL INFIRMARY is a three-story brick building, erected in 1916-17. It was given by Dr. Thomas Upham Coe, of the Class of 1857, in memory of his son, and stands in the pines to the south of the Gymnasium and Athletic Building.

The MOULTON UNION, designed by McKim, Mead, and White, was erected in 1927-28. It was given by Augustus Freedom Moulton, LL.D., of the Class of 1873, as a social center for the student life of the College. It is two stories in height and stands just outside the Quadrangle, between Appleton and William DeWitt Hyde Halls.

ADMISSION TO THE COLLEGE

In accordance with a vote of the Boards, the number of students in the Freshman class is limited to one hundred and sixty.

Testimonials of good moral character must be presented in all cases before certificates of admission are granted. Letters from principals or teachers dealing in a personal manner with the character and attainments of the candidate are desirable. The College is particularly interested in any special ability which a candidate may have shown in his secondary school life.

In the selection of a Freshman class, the College prefers candidates who offer for admission the subjects required for the course leading to the degree of A.B. It also prefers as candidates for the degree of B.S., those who offer for admission regular and approved subjects only, and who present the largest proportion of those subjects which demand two or more years of study.

Application for admission to the Freshman class should be addressed to the Director of Admissions before June 20, 1937.

SYSTEMS OF ADMISSION TO THE FRESHMEN CLASS

Candidates are admitted to Bowdoin College under the following systems of admission:*

Unit System:

- (1) with credits by certificate,
- (2) with credits by examination,
- (3) with credits by both certificate and examination.

Four-Examination System.

UNIT SYSTEM WITH CREDITS BY CERTIFICATE

An admission unit represents a course satisfactorily pursued in a secondary school five hours per week for a school year. To enter free from conditions, candidates for admission must offer in all $14\frac{1}{2}$ units.

The content of courses in which candidates may obtain units either by certificate or examination for admission to Bowdoin College should conform closely to the requirements as set forth by the College Entrance Examination Board in the document referred to on page 44.

CANDIDATES FOR THE DEGREE OF A.B. who have not studied Greek must present for admission 3 units in Latin, and are strongly recommended to present 4 units. If the fourth unit of Latin is not presented, a student is required to take, in College, either Latin A-B or both

*The Committee on Admissions has power to modify the requirements for a limited number of candidates of exceptional ability or unusual promise.

Greek 1-2 and 3, 4. Candidates for this degree are also recommended to present Ancient History to fulfill the requirement in history. Candidates desiring to present admission units in Greek should consult the Director of Admissions.

CANDIDATES FOR THE DEGREE OF B.S. may satisfy the language requirement for admission by presenting 3 units of one language or 2 units in each of two different languages.

The following subjects, aggregating at least $9\frac{1}{2}$ units, are required of all candidates:

English	3
Latin, Greek, French, or German	3 (or 4)
Algebra	$1\frac{1}{2}$ (or 2)
Plane Geometry	1
History (selected from the list below)	1

The study of *English* for four years in secondary school counts as only 3 units. *Algebra* counts as 2 units if pursued for two years, if reviewed in senior year, or if offered by examination. By special permission, *Spanish* may be substituted for one of the languages listed above.

Acceptable subjects, sufficient to bring the total up to $14\frac{1}{2}$ units, must be presented by all candidates. It is *strongly recommended* that these additional units be chosen from the following:

Languages*

Latin (2, 3, or 4)
 Greek (2 or 3)
 French (2, 3, or 4)
 German (2, 3, or 4)
 Spanish (2 or 3)

Mathematics and Science

Plane Trigonometry ($\frac{1}{2}$)
 Solid Geometry ($\frac{1}{2}$)
 Advanced Algebra ($\frac{1}{2}$)
 Physics (1)
 Chemistry (1)
 Biology (1)

History

Ancient History ($\frac{1}{2}$ or 1)
 Greek History ($\frac{1}{2}$)
 Roman History ($\frac{1}{2}$)
 Mediæval History ($\frac{1}{2}$ or 1)
 Modern European History ($\frac{1}{2}$ or 1)
 English History ($\frac{1}{2}$ or 1)
 American History ($\frac{1}{2}$ or 1)
 Civics, with American History ($\frac{1}{2}$ or 1)

The Director of Admissions is willing to consider applications for not more than 2 certified admission units in such subjects as the following: Botany, Civics, General Science, Physical Geography, Music.

*Not more than four or fewer than two units may be offered in any one foreign language.

For credit toward the $14\frac{1}{2}$ units required for admission under this system, certificates will be received from preparatory schools in New England which have been approved by the New England College Entrance Certificate Board. This Board is an association of colleges established for the purpose of receiving, examining, and acting upon all applications of schools in New England which ask for the privilege of certification. Certificates are in all cases passed upon by the College, but students are received on certificate from such schools only as have been approved by this Board. All schools desiring certification privilege should apply before *April 1st of each year* to the Secretary of the Board, Professor Frank W. Nicolson, Wesleyan University, Middletown, Conn.

The College has established a list of schools outside of New England to which it accords the certificate privilege. Admission to this list may be obtained on presentation of evidence of qualification.

Principals may obtain certificate forms for admission units upon application to the Director of Admissions.

UNIT SYSTEM WITH CREDITS BY EXAMINATION

The units, as described in the last section, may also be obtained by examination. Bowdoin College offers its own examinations, and accepts the examinations of the College Entrance Examination Board and those of the New York Board of Regents. Regular examinations for admission will be held at the College on May 24, 25, and 26, 1937. The examinations are to be conducted on the following schedule:

Monday, May 24th
9-12 A.M. Latin
2-6 P.M. History

Tuesday, May 25th
9-12 A.M. English
2-5 P.M. French
7-10 P.M. German, Greek, Spanish

Wednesday, May 26th
9 A.M.-1 P.M. Mathematics
2-6 P.M. Chemistry, Physics, Biology

The examination in English may be divided into two parts, if the candidate prefers: English A, covering the work usually pursued during the first three years in the secondary school, and counting 2 units; and English B, covering the work usually pursued during the fourth year in the secondary school, and counting 1 unit.

Entrance examinations may be divided between two or more successive years if the candidate prefers. In that case, a certificate will be given for such subjects as are passed at each examination period. This certificate is sent to the candidate within two weeks after Commencement.

Examinations in subjects accepted for admission are regularly held at Thornton Academy, Saco; at Washington Academy, East Machias; at Fryeburg Academy, Fryeburg; and at Lincoln Academy, Newcastle; these schools having been made special fitting schools for Bowdoin College by

the action of their several Boards of Trustees, in concurrence with the Boards of Trustees and Overseers of the College.

Examination papers will also be furnished to the principal of any high school or academy in Maine of good standing, having a regular college preparatory course of not less than four years in length.

In holding entrance examinations elsewhere than in Brunswick, the following regulations are to be observed. Papers are sent only in May. The dates for holding the examinations in 1937 are May 24, 25, 26, and the schedule printed above must be followed. Applications for papers, addressed to the Director of Admissions, must be received not later than May 15, and should state the name of the school, the subjects in which papers are desired, and the number of students to be examined in each subject. Examination papers together with the requisite number of blue books will be sent prepaid to the principal. On the completion of the examinations, the books are to be returned at once by express at the expense of the College.

The September examinations for admission are held only at the College, and credits gained as the result of these examinations will not be accepted until the following year if the Freshman class is already filled. These examinations are held, in 1937, according to the following schedule:

Monday, September 20th

9-12 A.M. English

2-6 P.M. History

7-10 P.M. German, Greek, Spanish

Wednesday, September 22nd

9 A.M.-1 P.M. Mathematics

2-6 P.M. Chemistry, Physics, Biology

Tuesday, September 21st

2-5 P.M. French

7-10 P.M. Latin

The certificates issued as a result of the examinations which are held by the College Entrance Examination Board, June 14-19, 1937, will be accepted by the College in so far as they meet the requirements for admission. A list of places at which these examinations will be held will be published about March 1, 1937. Detailed definitions of the requirements in all examination subjects are given in a circular of information published annually about December 1st. Upon request to the Secretary of the College Entrance Examination Board, a single copy of this document will be sent to any teacher without charge. In general, there will be a charge of thirty cents which may be remitted in postage. All candidates wishing to take these examinations should make early application by mail to the Secretary of the College Entrance Examination Board, 431 West 117th Street, New York, N. Y. Blank forms for this purpose will be mailed by the Secretary of the Board to any teacher or candidate upon request.

UNIT SYSTEM WITH CREDITS BY CERTIFICATE AND EXAMINATION

Candidates for admission may obtain some of their units by certificate and the remainder by examination, in accordance with the regulations above stated.

FOUR-EXAMINATION SYSTEM

Under this system of admission a candidate is required to present a record of his school work showing the subjects studied, the time devoted to each subject, and the quality of the work done in each. This record, to be approved, must show that the work done in secondary schools has covered four years, that it has been devoted mainly to English, foreign languages, mathematics, and history, that none of these has been omitted, and that two of the subjects offered for examination have been pursued beyond their elements. Science is not required for admission, but examinations in Chemistry, Physics, or Biology may be offered. The candidate's school record must be sent to the Director of Admissions before April first. If it is approved by the College the candidate will then submit four subjects, satisfying the regulations in the next paragraph, in each of which he will be given an examination adapted to show the range and quality of his attainment. These four examinations must all be taken in the same year, and at the regular spring examination period of the College. The various equivalent examinations of the College Entrance Examination Board will be equally acceptable.

Examinations will be offered in English, Latin, Greek, French, German, Spanish, History, Mathematics, and Science (i.e., Chemistry, Physics, or Biology). Under this system a comprehensive examination in English is required of every candidate, an examination in Latin of each candidate for the degree of A.B., and an examination in Mathematics, of each candidate for the degree of B.S. No examination will be set in a foreign language which has been studied less than two years. If a candidate shall have studied in his senior school year third or fourth year Latin, or Greek, French, German, or Spanish he will take the examination covering the work of his final year only. If a candidate in Mathematics shall have studied in his senior school year two of the three branches of advanced mathematics,—namely, Solid Geometry, Plane Trigonometry, and Advanced Algebra,—he will take an examination in these two subjects; otherwise he will take a comprehensive examination covering both Elementary Algebra and Plane Geometry.

Both the school record and the results of the examinations considered as a whole will determine the acceptance or rejection of the candidate. Permission for candidacy under this plan is valid only for the specified

examination period. A candidate rejected under this plan will receive due credit for such examinations as he may pass under this plan toward the $14\frac{1}{2}$ units required under the *Unit System*.

ADVANCED STANDING

Candidates for admission to the Sophomore, Junior, and Senior classes are admitted only upon vote of the Faculty after the receipt of proper evidence of their qualification to pursue the studies of the classes to which they seek entrance. A student from another college, before he can be admitted, must present a certificate of honorable dismissal. At least one full year of residence is required for a degree. Application for admission to advanced standing should be addressed to the Dean.

SPECIAL STUDENTS

Persons who give evidence of maturity, earnestness of purpose, and adequate preparation will be allowed to pursue special studies in connection with the regular classes, without becoming candidates for a degree; but no student shall continue in such special standing for more than two years. Special students wishing to become candidates for a degree must satisfy all the regular requirements for admission to the Freshman class. During the first year of residence no student in special standing is allowed to participate in intercollegiate athletics.

Applications for admission as special students should be addressed to the Dean.

CURRICULAR REQUIREMENTS

REQUIRED COURSES

Good English is required both in spoken and in written work, not only in English courses but in all courses. Any student whose work is unsatisfactory in English, whether in the details of spelling or grammar or in the larger matter of clear expression of ideas, is reported to the Committee on Undergraduate English, and may be required to receive special instruction intended to correct these deficiencies. No student so reported will be recommended for a degree unless he has satisfied the Committee.

All students are required to take certain courses in Physical Education.

FRESHMAN YEAR. All candidates for a degree are required to take:

- (1) Hygiene, and English 4; *and*
- (2) English 1-2; *and*
- (3) One of the following: History 1-2; or Physics 1-2; or Chemistry 1-2; or Zoölogy 1-2; or a second acceptable elective from (4), below; *and*
- (4) One of the following: Greek 1-2, Greek 3, 4, Latin A-B, Latin 1, 2, or Mathematics 1, 2; and to comply with the special requirements for the degree of A.B. or B.S. as here set forth:

Candidates for the degree of A.B. who presented *four* years of Latin for admission complete the special requirements for that degree by electing Latin 1, 2, or Mathematics 1, 2, or by electing Greek 1-2 in Freshman year and Greek 3, 4 in Sophomore year, unless two or more years of Greek are offered for admission, in which case more advanced Greek should be elected.

Candidates for the degree of A.B. who presented *three* years of Latin for admission complete the special requirements for that degree by electing Latin A-B, or Greek 1-2 in Freshman year, and thereafter or concurrently, completing one of the following five groups of courses: (1) Latin A-B, and Latin 1, 2; (2) Latin A-B, and Mathematics 1, 2; (3) Greek 1-2, Greek 3, 4, and Latin A-B; (4) Greek 1-2, Greek 3, 4, and Greek 5-6, or equivalent; (5) Greek 1-2, Greek 3, 4, and Mathematics 1, 2.

Candidates for the degree of B.S. who presented *two* years of Latin for admission, and who wish to transfer to the course leading to the degree of A.B. are required to take Greek 1-2, Greek 3, 4, and *either* Greek 5-6 *or* Mathematics 1, 2.

Candidates for the degree of B.S. are required to take Mathematics 1, 2. *And*

(5) To comply with the requirements in modern languages as here set forth:

An elementary knowledge of both French and German, and a more advanced knowledge of one of these languages.

An elementary knowledge is defined as the equivalent of that obtained by passing French 1-2 or German 1-2.

A more advanced knowledge is defined as the equivalent of that obtained by passing French 3-4, or German 3-4, or German 5-6.

All students who presented French or German for admission shall, unless excused by the provisions of the following paragraph, continue during Freshman year the language presented for admission and shall take during Sophomore year French 1-2 if German was presented for admission, or German 1-2 if French was presented for admission.

Students are strongly advised to meet the requirements of a more advanced knowledge of French or German by passing the courses indicated above; but any student may, with the consent of the Dean, meet this requirement by passing before the beginning of the Sophomore year a special examination in French or German.

Students who present both French and German for admission will fulfill all modern language requirements either by continuing one of these languages during Freshman year or by passing a special examination in one of them in accordance with the preceding paragraph.

No student shall be advanced to Senior standing until he has completed his modern language requirements.

MUSIC

PROFESSOR TILLOTSON

- 1-2. *Theory of Music, and Ear Training.* Whole year: Monday, Wednesday, Friday, 8.30.

This course treats Music as an aural art, and shows its dependence in all its branches upon a keen sense and accurate power of hearing, which is indispensable to an intelligent study of harmony, counterpoint, and analysis, and the comprehension of music. The work is always related to living music. Rules and facts are deduced from music, not vice versa.

After a presentation of the evolution of rhythm, the course deals with theory, sight-reading, and ear-training. Under theory, notation, intervals, time values, rhythmical forms, scales—tonality, modes, cadences, transposition, and the general principles of interpretation are studied. Under sight-reading, melodic line in various rhythms in all clefs are sung. Ear-training: dictation in all time signatures, rhythms, and keys. Dictation is given in single melodic line,—chosen chiefly from thematic material in masterpieces,—canon, simple chord progressions and their inversions. Score reading.

Elective for Sophomores, Juniors, and Seniors. No previous training required. Advised, but not required, as a preparation for Course 3-4. Recommended for members of the Glee Club and the Choir.

Application of this to the typical forms, fugue, rondo, sonata, etc., as living molds, the comprehension of which is the basis of all musical experience. Study of materials used in performance. The Friday morning hour is in the form of a laboratory for the purpose of: singing and conducting representative themes; experiencing the fundamentals of music, as pulse, meter, phrase, close and half close, and tone tendencies; translating what is heard in terms of emotional or mood states. Study of representative works of the polyphonic period. Symphonies, quartets of Haydn and Beethoven. Romantic and modern schools. Examinations are based en-

tirely upon listening tests. The work is illustrated through the piano, and where instrumental color is required, through records.

DR. JEPPESEN

An introductory course covering the whole field of General Physics, and providing sufficient practice in laboratory technique to meet the elementary requirements of the other natural sciences and medicine.

Elective for Freshmen, Sophomores, Juniors, and Seniors.

3. *Mechanics*. First semester: Tuesday, Thursday, Saturday, 10.30.

PROFESSOR BARTLETT

An introductory course in mechanics, dealing with the application of Newton's laws of motion to problems in the statics and dynamics of the particle and rigid body. It is designed to furnish the student with the theoretical background necessary for work in engineering or the physical sciences.

Prerequisites, Physics 1-2, and Mathematics 1, 2.

4. *Modern Physics*. Second semester: Tuesday, Thursday, Saturday, 10.30.

PROFESSOR BARTLETT

An elementary survey of the development of physics in the twentieth century, with particular emphasis upon recent advances in the theory of atomic structure. It is designed primarily to acquaint the student of physics and chemistry with the evidence for the existence of the electron, proton, neutron, positron, and photon, and with our present ideas of the manner in which these fundamental particles interact to form atoms and molecules.

Prerequisite, Physics 1-2.

5. *Laboratory Physics*. First semester: Tuesday, Thursday, 8.30; Laboratory hours to be arranged, on Monday and Tuesday.

6. *Continuation of Course 5*. Second semester: at the same hours. [In 1936-1937, Course 6 is combined with Course 5 and given in the first semester.]

PROFESSOR LITTLE

Standard physical measurements are made in the fields of mechanics, sound, heat, electricity and magnetism, optics, and modern physics.

Prerequisites, Physics 1-2, and Mathematics 1, 2.

- 7-8 *Special Laboratory or Theoretical Studies*. Whole year: three hours a week to be arranged, or an equivalent in laboratory work.

PROFESSORS LITTLE AND BARTLETT

This course offers to students having requisite training the

opportunity of pursuing individual physical investigations under the direction of the instructor.

Elective only with the approval of the Department.

This course, if the investigations pursued concern the teaching of Physics, is acceptable toward the Maine State Teacher's Certificate.

10. *Selected Experiments in Modern Physics.* Second semester: hours by arrangement. DR. JEPPESEN

This course affords training in laboratory technique for students of Physics or Chemistry. The apparatus available permits of investigations in atomic, molecular, and x-ray spectra, and the Raman effect. Measurements of the fundamental properties of the electron are included and, if time permits, experiments in radio-activity and photo-electricity.

PSYCHOLOGY

PROFESSOR BURNETT AND DR. MILLER

- 1-2. *General Psychology.* Whole year: Tuesday, Thursday, Saturday, 8.30. PROFESSOR BURNETT AND DR. MILLER

The aim of this course is to acquaint the student with the facts and the laws of conscious behavior. Emphasis is laid upon those topics which are most intimately connected with practical life, and a knowledge of which is highly important for a man of liberal education. The subject-matter is treated from the point of view of natural science. Emphasis is laid upon developing in the student skill to use Psychology for interpreting the events of life, and for accomplishing its business.

Elective for Sophomores, Juniors, and Seniors.

This course is acceptable toward the Maine State Teacher's Certificate.

3. *Abnormal Psychology.* First semester: Tuesday, Thursday, Saturday, 9.30.

This course considers the abnormal facts of conscious behavior, such as insanity, hypnotism, hysteria, and multiple personality, for the light these throw on both the usual and the borderland adjustments in every man's life. The emphasis is thus on the inadequate adjustments of every day, which interfere with a man's full efficiency for work and enjoyment.

Prerequisite, Course 1-2.

4. *Social Psychology.* Second semester: at the same hours as Course 3. [In 1936-1937, first semester: Monday, Wednesday, Friday, 2.30.] PROFESSOR BURNETT

This course deals with the effect of social conditions on conscious behavior. It inquires into the psychology of human social groups of various kinds, such as nations, legislatures, committees, crowds, publics, etc., and into the behavior of men in social contact as revealed in customs, fashions, institutions, religions, art, and language. It tries to answer the question: How and why does a man when aware of his fellows, behave and think and feel otherwise—sometimes better, sometimes worse—than when not aware of that group relationship?

Prerequisite, Course 1-2.

- 5-6. *Experimental Psychology*. Whole year: Tuesday, Thursday, Friday, 1.30-3.30. DR. MILLER

The object of this course is training in methods of investigation, in the discovery of and reliance upon experimental evidence, with especial reference to its particular application to the science of Psychology.

Prerequisite, Course 1-2.

Under certain circumstances this work may be continued for another year.

RELIGION

DR. SCHROEDER

1. *Biblical Literature*. First semester: Monday, Wednesday, 9.30, and a third hour to be arranged.
2. *Continuation of Course 1*. Second semester: at the same hours.

A critical introduction to the Old and New Testaments; an examination of the religion and literature of the Bible.

The purpose of the course is to acquaint the student with the contents of the Bible, and to analyze critically the development of its religious insight.

Elective for Sophomores, Juniors, and Seniors.

SPANISH

MR. BROOKE

- [1-2. *Elementary Spanish*. Grammar, composition, and reading. Whole year: Monday, Wednesday, Friday, 1.30.]

INSTITUTES

The regular instruction of the College is supplemented every two years by Institutes in various subjects. Institutes have been held in Modern History, Modern Literature, the Fine Arts, the Social Sciences,

the Natural Sciences, and Politics. The Institute for 1937 will be in Philosophy.

The method of conducting these Institutes is to bring to Brunswick ten or more lecturers, each an authority in his field, and each of whom gives a public lecture and conducts a round-table conference solely for students. Thus, each student during his college course has an opportunity, not only to hear at least twenty people from beyond the college faculty, but to participate in round-table conferences with those in whose subjects he is most interested.

LECTURESHIPS

ANNIE TALBOT COLE LECTURESHIP

This lectureship was founded in 1906 by Mrs. Calista S. Mayhew, of South Orange, N. J., in memory of her niece, Mrs. Samuel Valentine Cole, with a gift of \$4,750. According to the provision of the donor, this lectureship is to "aim at contributing to the ennoblement and enrichment of life by standing for the idea that life is a glad opportunity. It shall, therefore, exhibit and endeavor to make attractive the highest ideals of character and conduct, and also, in so far as possible, foster an appreciation of the beautiful as revealed through nature, poetry, music, and the fine arts."

BENJAMIN APTHORP GOULD FULLER MEMORIAL FUND

This fund of \$3,821 was founded in 1911 in memory of Benjamin Apthorp Gould Fuller, A.M., of the Class of 1839, and provides for instruction in Social Hygiene in its broadest aspect.

MAYHEW LECTURESHIP

This lectureship was founded in 1923 by Mrs. Calista S. Mayhew. The income from the bequest of \$5,000 is used "to provide lectures on bird life and its effect on forestry."

TALLMAN LECTURE FUND

This fund of \$100,000 was given by Frank G. Tallman, A.M., of Wilmington, Delaware, in 1928, as a memorial to the Bowdoin members of his family. The income is "to be expended annually upon a series of lectures to be delivered by men selected by the Faculty either in this country or abroad."

JOHN WARREN ACHORN LECTURESHIP

This lectureship was established in 1928 by Mrs. John Warren Achorn, as a memorial to her husband, a member of the Class of 1879. The income from the fund of \$2,500 is used for lectures on birds or bird life.

ADMINISTRATION OF THE COLLEGE

TERMS AND VACATIONS

The Academic Year is divided into two semesters, or terms, of equal length. Commencement Day, in 1937, is Saturday the 19th of June. The summer vacation of fourteen weeks follows Commencement Day. There are three periods of vacation during the year: the first, a recess of about four days, including Thanksgiving Day; the second, a recess of about ten days including Christmas and New Year's; and the third, the Easter recess of ten days beginning on Friday of the week before the first day of April, and continuing until Tuesday of the week following the first day of April. The following are also observed as holidays: Armistice Day, Washington's Birthday, Patriots' Day, Ivy Day, and Memorial Day.

REGISTRATION AND ENROLLMENT

All students are required to register on the first day of each academic year, except that Freshmen on entering college are required to register on Wednesday morning preceding the opening of the academic year. A fine of two dollars is imposed for late registration.

Students must enroll for courses previous to the opening of each semester, in accordance with the regulations posted at the College. A fine is imposed for late enrollment.

COLLEGE BILLS

At the opening of each semester, a term bill shall be rendered for one-half the annual tuition, room rent, fees and taxes, and for other charges due from every student. At least one-half of the term bill must be paid at the time of registration and the balance shall be payable in sixty days after the date of the bill. Bills for other charges may be rendered at any time and shall be payable immediately.

Any student whose term bill is not paid when due may be excluded by the Faculty from the privileges of the College and from credit for college work. No student shall be admitted to semester examinations if any college charges against him remain unpaid, except in special cases by permission of the Faculty.

No student will be advanced in class standing until all the dues of the previous year have been paid; and no degrees will be conferred upon students who have not paid all their dues to the College.

No student will be dismissed from college on request unless he shall have paid all his college bills, including that of the current semester.

During the time that term bills which are overdue remain unpaid, a student receives no credit for college work.

EXPENSES

TUITION.—The tuition fee is \$250 a year. Any student completing the number of courses required for a degree in less than four years will be required to pay full tuition for four years.

OTHER COLLEGE CHARGES.—All damage done to the buildings or other property of the College by persons unknown, may be assessed equally on all the undergraduates. A diploma fee of \$5 is charged to each student at graduation. The College also collects an annual fee of \$3 or \$4 for a locker and the use of towels in the gymnasium; a fee of \$3.50 each semester for the privileges of the union; and a fee of \$12.50 a semester, to support the various student activities.

ROOMS.—Rooms, including heat and care, in the college dormitories may be rented at prices varying from \$160 to \$310 a year. The price may be halved if the room is shared with another student, as is usually done. Electric lights are furnished at the rate of \$6 per 40-watt lamp a year. None of the college rooms is furnished. Freshmen are required to room in the college dormitories, unless other arrangements are made with the Dean. Applications for rooms should be made to the Treasurer.

BOARD.—Board at the fraternity houses and at other places in the town varies from \$7 to \$8 a week. The cafeteria in the Moulton Union accommodates seventy-five to a hundred students, and furnishes meals at reasonable rates.

A leaflet containing estimates of all necessary college expenses, as well as scholarship aid and self-help, has been prepared. A copy will be sent gratis on application to the Director of Admissions.

FEES FOR COURSES

The payment of fees for *extra courses* is regulated by the following provisions. (Any course taken in excess of four courses, with the exception of English 4, Hygiene, and the fifth course required of Sophomores, is regarded as an *extra course*.)

(1) The sum of \$7.50 is charged for each extra course, the same to be paid in advance and to be rebated at the close of the semester in which the course is taken, provided the four regular courses and the extra course be passed. (2) Such charges are remitted in the case of Seniors who need the extra course or courses to complete their work for graduation.

The fees for laboratory courses are as follows:

Chemistry 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, \$3.75 each. If two

courses are taken at the same time, one of which is not Chemistry 7 or 8, the fee for the two is \$5.50.

Mineralogy, \$2.50.

Zoölogy 3, 4, 5, 6, \$3 each; Zoölogy 12, \$5.

EXAMINATIONS

The regular examinations of the College are held at the close of each semester.

An unexcused absence from an examination entails a mark of zero. In case of illness or other unavoidable cause of absence from examination, the Dean has power to suspend the action of this rule.

RANK

The rank of a student in each course is computed on a scale of 10, but is preserved on the college records in the letters A, B, C, D, and E. A signifies a rank from 9 to 10; B, a rank from 8 to 9; C, a rank from 7 to 8; D, a rank from 6 to 7; E, a rank lower than 6, and a condition.

REPORTS OF STANDING

A report of the rank of each student is sent to his parents or guardian at the close of each semester. The report contains a statement of the standing of the student in each of his courses, together with the number of unexcused absences from chapel.

REQUIREMENTS FOR DEGREES

In order to be recommended for the degree of Bachelor of Arts or Bachelor of Science, a candidate must have been at least one year in residence at Bowdoin College and have complied with the regulations in regard to courses. He must, moreover, have attained a grade of C, or higher, in at least half his courses.

In accordance with a vote of the Boards passed in 1916, upon recommendation of the Faculty, the degree of Master of Arts, in course, is no longer conferred.

DEGREES WITH DISTINCTION

The Degree of Bachelor of Arts or Bachelor of Science with distinction is awarded in three grades:

Cum Laude. A candidate is recommended for a degree *cum laude* who has obtained an average grade of B in all courses presented for a degree.

Magna cum Laude. A candidate is recommended for a degree *magna cum laude* who has obtained a grade of A in three-fourths, and B in another eighth, of his courses.

Summa cum Laude. A candidate is recommended for a degree *summa cum laude* who has obtained a grade of A in seven-eighths of his courses. A candidate for a degree *summa cum laude* must have been in residence at Bowdoin College at least three years.

HONORS IN MAJOR SUBJECTS

Honors in major subjects are awarded, on vote of the Faculty, to students who especially distinguish themselves in those subjects. They are awarded in three grades; *honors*, *high honors*, and *highest honors*.

The award is based, not primarily on the average grade attained in the courses that constitute the major, but on the result reached in the additional work,—especially that which the student has done largely on his own initiative,—and on his ultimate attainment in the subject.

RELIGIOUS EXERCISES

Prayers are held each week-day at 8.20 A.M. in the College Chapel, and vesper services are held on Sundays at 5 o'clock. All students, unless excused by authority of the Dean, are required to be present. From time to time during the year prominent clergymen of various denominations come to Brunswick to preach at the College.

THE CHRISTIAN ASSOCIATION

The Christian Association is an undenominational student organization, membership in which is open to every undergraduate. It stands definitely for a life governed by the principles of Christ as interpreted to meet the needs of college students. The Association conducts many lines of work. Occasional meetings are addressed by prominent business and professional men. The College preachers often meet the undergraduates informally on the Sunday evenings of their visits.

BOARD OF PROCTORS

The maintenance of order in the dormitories and the responsibility for their proper care are vested in a Board of Proctors.

The members for the year 1936-1937 are:

The Dean, *Chairman*

Richard Crowell Clapp
George Michael Griffith
Crowell Clarinton Hall, 3rd
Daniel Ward Healy, Jr.

William Robert Owen
Robert Marston Porter
John Francis Swett Reed
Wendell Carter Sawyer

STUDENT COUNCIL

The Student Council is composed of ten members from the Senior class and two from the Junior class elected annually by the undergraduates. In matters pertaining to student affairs it makes recommendations to the student body, and occasionally to the Faculty. The members for the year 1936-1937 are:

Robert Marston Porter, *President*

Wendell Carter Sawyer, *Vice-President*

Virgil George Bond

Richard Crowell Clapp

Nathan Dane, 2nd

Daniel Ward Healy, Jr.

Ralph Gordon Johnson, Jr.

William Robert Owen

Richard Morris Steer

Stanley Williams, Jr.

David Waldron Fitts

Geoffrey Robert Stanwood

SOCIAL LIFE

FRATERNITIES

The students of the College have divided themselves into groups for the purposes of social and personal relations. Eleven chapters of the national Greek-letter societies occupy their own fraternity houses and provide comfortable homes for their members. A generous program of inter-fraternity athletic and social events enables the members of each group to widen their circle of acquaintances, and prevents the student body from breaking up into a number of separate entities. The affairs of each house are administered by student officers with the coöperation of an alumni committee and an advisor from the Faculty.

THE MOULTON UNION

The Moulton Union is the center for the social life of the entire college, and provides for the non-fraternity men a club which rivals the most comfortable of the chapter houses. Its admirable facilities serve to make it a home on the campus for all of the undergraduates and their parents, faculty members, alumni, and friends of the College. Many of the undergraduate extra-curricular activities are appropriately and conveniently housed in this building, which is well adapted to provide a place for their varied programs. The Union includes cafeteria and dining room service for students, members of the Faculty, and friends of the College. Comfortable rooms are also available at moderate rates for visitors.

The affairs of the Union are administered by a committee composed of three members of the Faculty and three undergraduates. The members for 1936-1937 are as follows: Donovan Dean Lancaster, *Chairman*; Associate Professor Arthur Chew Gilligan, and Mr. Reinhard Lunde

Korgen, from the Faculty; and William Robert Owen, Roy Edward Wiggin, and Leonard Jerome Cohen, from the student body.

MEDICAL ATTENDANCE

In case of illness students should immediately call upon, or summon, the college physician, Dr. Johnson, whose office is in the Infirmary.

THE DUDLEY COE MEMORIAL INFIRMARY, completed in 1917, and endowed by the donor with a sum ample for all running expenses including that of resident attendants, is a gift of Dr. Thomas Upham Coe, of the Class of 1857, in memory of his son. It is fifty-eight feet in length and thirty-eight feet in width, and has three stories and a basement. It is entirely fireproof.

The basement contains a dining room, kitchen, laundry, furnace room, and janitor's room.

The first floor contains the reception hall, physician's office, operating room, sterilizing room, nurse-matron's rooms, two wards of two beds each, and bath rooms.

The second floor is designed especially for the care of contagious diseases and contains two hospital units; each unit, comprising two wards of two beds each, duty room, diet kitchen, and bath room. These units are so arranged that they can be isolated. There are also a physician's room and a sterilizing room on this floor.

The third floor contains rooms for the nurses connected with the infectious wards, rooms for maids, a solarium, and a storeroom.

Students, who are admitted to the Dudley Coe Memorial Infirmary on recommendation of the College Physician, are cared for without fee till discharged.

A fund of \$1,000, given by Mr. and Mrs. George F. Godfrey, of Bangor, in memory of their son, Henry Prentiss Godfrey, is devoted to providing medical attendance for students who may be sick while in college.

FINANCIAL AID

SCHOLARSHIPS

More than \$25,000 is distributed annually in the form of scholarships to aid meritorious students of slender means. Scholarships are not college honors and should be sought only by students who would have difficulty in meeting the expenses of their college education unless so aided. While scholarships are awarded primarily on the basis of need, a student, to continue to receive such aid, must maintain an average rank of C, or higher, in at least half his courses, this being the minimum requirement for graduation. Scholarships are not promised, or awarded, previous to admission to college, except the State of Maine Scholarships.

Applications for scholarships must be made upon blank forms furnished by the Treasurer of the College. They must be made out anew each year and deposited in the Dean's office before November 1st.

To encourage the best students in the secondary schools of Maine to seek a college education, the College offers in 1936-1937 four competitive scholarships of \$500 each. For the distribution of these awards the State is divided into four districts, as follows: 1, the Counties of Cumberland and York; 2, the Counties of Androscoggin, Kennebec, Lincoln, Oxford, and Sagadahoc; 3, the Counties of Hancock, Knox, Penobscot, Waldo, and Washington; 4, the Counties of Aroostook, Franklin, Piscataquis, and Somerset. Only one scholarship will usually be awarded in each district, but if any district fails to furnish a candidate who passes with a sufficiently high grade the special examinations set by the College, no award will be made in that district, and an extra award *may* be made in another district. Candidates for these scholarships must be residents of Maine, must apply as from the districts in which they are attending school when making application, and must be in need of financial assistance. Candidates must satisfy, so far as possible at the time of examination, the entrance requirements of Bowdoin College.

PHYSICAL EDUCATION

The Sargent Gymnasium has a frontage of 80 feet and a depth of 140 feet. On the first floor are the lockers, dressing rooms, managers' and instructors' rooms, and rooms for boxing, fencing, and hand-ball. On the second floor are the main exercising room, 112 feet by 76 feet, a smaller exercising room, a trophy room, and offices. The building is equipped with the most approved apparatus, is heated and lighted by modern methods, and is supplied with a ventilating system capable of changing the air throughout the building every twenty minutes.

The General Thomas Worcester Hyde Athletic Building is connected with the Gymnasium. It has an earth floor 160 feet by 120 feet, and a one-twelfth mile running track ten feet wide. In this building are set off spaces 120 feet by 40 feet for track athletics and 120 feet by 120 feet for a full-sized baseball diamond with space to over-run the bases by nearly fifteen feet.

The Swimming Pool is also connected with the Gymnasium. The building is 130 feet by 60 feet, and the pool itself is 75 feet by 30 feet.

The Whittier Athletic Field is a short distance from the gymnasium, and is reached by a straight path through the pine grove. This field, named in honor of Dr. Frank Nathaniel Whittier, of the Class of 1885, long the director of the gymnasium, who was largely instrumental in the acquisition and preparation of it for athletic purposes, is about five acres in extent, and is well adapted in all respects for football, and track athletics.

The Hubbard Grandstand is situated on Whittier Field, and contains, besides seats for eight hundred spectators, training rooms for the athletes, baths, dressing rooms, and quarters for the visiting teams.

Pickard Field is just to the south of Longfellow Avenue. It was given by Frederick William Pickard, LL.D., of the Class of 1894, and named in honor of his family. Here, on a tract of sixty-six acres, are facilities for baseball, tennis, soccer, and freshman football. A Field House is now being erected.

KENT'S ISLAND SCIENTIFIC STATION

The College maintains a scientific station for special laboratory and field investigations on Kent's Island at the entrance to the Bay of Fundy. This island, which is nearly two miles long and contains approximately one thousand acres, was presented to the college in 1935 by John Sterling Rockefeller.

Adequately equipped as a base for practical field training in Ornithology, Marine Zoölogy, Botany, Geology, and Meteorology, the station includes laboratory facilities, a meteorological observatory, and the

short-wave radio station, VE1IN. A forty-two foot cruiser is available for scientific research. A two-story dormitory provides comfortable living quarters for the members of the annual summer expedition.

Students desiring to enroll in the expedition for the summer of 1937 should make suitable application to the Director, William A. O. Gross, Bowdoin College, Brunswick, Maine. The administration of the station is in the hands of a Board of Directors. The members for 1936-1937 are as follows: Donald Baxter MacMillan, Alfred Otto Gross, Manton Copeland, Albert Trowbridge Gould, Sumner Pike, Edward Nathan Goding, Alger Wayland Pike, Henry Southworth Shaw, and William Albert Otto Gross.

THE ART COLLECTIONS

The art treasures of the College,—except the portraits and busts in Memorial Hall, the series of portraits of the presidents of the College in Hubbard Hall, and the mural paintings in the Chapel,—are exhibited in the Walker Art Building. This building was designed by Messrs. McKim, Mead, and White and erected by the Misses Mary Sophia and Harriet Sarah Walker, of Waltham, Massachusetts, as a memorial of their uncle, Theophilus Wheeler Walker.

The main entrance consists of a loggia, in front of which, and supporting the wall above, are six Ionic columns of stone. Niches in the front wall of the building on either side of the loggia contain bronze copies, by De Angelis of Naples, of the classical statues of Demosthenes and Sophocles. Pedestals on either side of the ascent to the loggia are surmounted by copies in stone of the lions of the Loggia dei Lanzi.

The entrance from the loggia is to the Sculpture Hall, occupying the central portion of the building beneath a dome which rises to the height of forty-seven feet, and furnishes light to the apartment through a skylight at the top. The four tympana below the dome, each twenty-six feet in width, are filled with four paintings symbolizing the artistic achievements of Athens, Rome, Florence, and Venice, executed by Messrs. John La Farge, Elihu Vedder, Abbott Thayer, and Kenyon Cox, respectively. Original classical marbles; busts, and work in low-relief; bronze and plaster fac-simile casts of classical figures and groups of statuary are exhibited in this room.

The Bowdoin, Boyd, and Sophia Wheeler Walker Galleries are entered from three sides of the Sculpture Hall. The Bowdoin Gallery contains chiefly the collection of about one hundred paintings, and one hundred and fifty original drawings by old and modern masters bequeathed to the College by Honorable James Bowdoin, and a series of portraits of some of the distinguished benefactors of the College. The Boyd Gallery contains, mainly, the collection of paintings given by

Colonel George W. Boyd, of the Class of 1810, a collection of Japanese and Chinese works of art, collected and formerly owned by the late Professor William A. Houghton, A.M., a collection of objects of Oriental Art given by David S. Cowles, Esq., the Virginia Dox collection of objects of native American art, a collection of original Classical Antiquities from Mycenæan to Roman times given by Edward P. Warren, L.H.D., and collections given or loaned by Mr. George W. Hammond, Mrs. Levi C. Wade, Hon. Harold M. Sewall, Mr. Dana Estes, and other friends of the College. The Sophia Wheeler Walker Gallery contains exclusively works of art given by the Misses Walker, being chiefly specimens of ancient glass, Roman sculpture, old Flemish tapestry, Oriental ivory carvings, miniatures, etc., with paintings and drawings by modern artists of the foremost rank, and a bronze relief portrait, by French, of Theophilus Wheeler Walker.

In the basement are two lecture rooms and a room of Assyrian sculpture. The Charles A. Coffin collection of etchings is exhibited mainly in the Assyrian Room. There is also a collection of seventeenth, eighteenth, and nineteenth century watches, bequeathed by Hon. James Phinney Baxter, Litt.D.

The income from a bequest of \$5,000, from Hon. James Phinney Baxter, Litt.D., late of Portland, is used for the "purchase of art objects, the same to be suitably labeled, James Phinney Baxter Collection in memory of Henry Johnson."

THE LIBRARY

The Library contains about 170,000 bound volumes. It includes the private library of Hon. James Bowdoin, received after his death in 1811; and the extensive collections of the Peucinian and Athenæan Societies, added in 1880.

Special collections worthy of note are the Longfellow collection, the Isaac Watson Dyer Carlyle collection, the Huguenot collection, the Edward C. Guild German Dialect collection, the Arctic collection, the Abbott collection, and the Maine collection.

The Library possesses valuable sets of periodicals collected during the past century, and more than three hundred titles are currently received by subscription. The printed catalogue cards of the Library of Congress are received as issued, and this bibliographical collection of increasing value and serviceableness may be consulted by any investigator. Though no formal instruction in bibliography is given, the librarian and his assistants are always ready to lend personal aid to inquirers.

During term time, the Library is open week-days from 8.30 to 5.30, and from 6.45 to 10.30; Sundays from 2.00 to 4.55, and 6.45 to 10.30.

In vacation it is open five hours daily, with the exception of Sundays and holidays.

Annual accessions, which average three thousand five hundred volumes, are made to the Library by means of an appropriation by the Boards for the purpose, and from a part of the proceeds of the following funds.
